To,

The Registrar  
Chhatrapati Shahu Ji Maharaj University  
Kanpur, Uttar Pradesh

**Subject: Regarding necessary action based on the feedback analysis of the Student's Feedback under SSR (Metric 1.4.1)**

Dear Sir,

I am writing to you with regards to the analysis of the feedback collected under Metric 1.4.1 of the NAAC-SSR (National Assessment and Accreditation Council - Self Study Report) of our college. Our commitment to continuous improvement is reflected in our earnest efforts to gather valuable feedback from our students. Through this process, we have identified specific concerns raised by our students that I believe, need your attention.

Firstly, the students have expressed their concern **about the vastness of the syllabus for minor papers**. They feel that the extensive curriculum poses challenges in terms of preparation and may be a hindrance to their overall academic performance. I kindly request your guidance and support in addressing this matter, possibly through a review of the minor paper syllabi to ensure a balanced and manageable workload for our students.

Secondly, the students have raised their concerns about the frequency of examinations, which they feel, leaves them with insufficient time to adequately prepare for the end-semester exams. I propose a review of the examination schedule, with the aim of creating a more balanced and student-friendly timetable that allows for adequate preparation time.

Additionally, the students have suggested the **need for more precise and simplified guidelines** for the research project. Clearer instructions would not only enhance the quality of the projects but also alleviate any confusion among students undertaking this academic endeavor.

• email: [ppncollegekanpur@gmail.com](mailto:ppncollegekanpur@gmail.com) •

Lastly, there is a request for a **thoughtful consideration of the choice of Multiple Choice Question (MCQ) papers or semesters**. The students feel that a more deliberate selection of subjects for MCQ patterns is essential to ensure the appropriateness of the evaluation method. We propose a thorough examination and refinement of the current system to better align with the learning objectives.

I am confident that your expertise and guidance will play a crucial role in addressing these concerns and enhancing the overall academic experience for not only our students but also the students of other colleges affiliated to the university. I am open to further discussions and collaboration to implement any necessary changes that will contribute to the continuous improvement of our academic processes.

Thank you for your attention to this matter. Looking forward to your valuable insights.

Sincerely,

- The students expressed their concern regarding the availability of books, journals and magazines. The students also demanded for a digitalised library. All the concerns were duly addressed by the college administration.

## Laboratory:

1. **Laboratory Attendance:** A significant percentage (49.1%) of students attended laboratory classes regularly, indicating their commitment to practical learning. However, 15.5% attended often, and 21.5% attended sometimes, suggesting room for improvement in maintaining consistent attendance.
2. **Availability of Laboratory Equipment's and Materials:** The majority of students (87.1%) rated the availability of laboratory equipment and materials as either excellent or good. This is a positive sign as it indicates the college is well-equipped.
3. **Maintenance of Laboratory:** More than 84.8% of students rated the maintenance of laboratories as either excellent or good, highlighting the college's commitment to keeping the facilities in good condition.
4. **Relevance of Laboratory Experiments:** A considerable proportion (86.1%) of students found laboratory experiments extremely relevant or relevant to their coursework.
5. **Safety and Comfort During Laboratory Experiments:** The majority (84.6%) felt safe and comfortable during laboratory experiments, which is positive. However, 15.4% reported feeling somewhat or not safe and comfortable, indicating the need for potential improvements in safety measures or communication about safety protocols.
6. **Guidance and Support:** A high percentage (83.6%) of students reported receiving adequate guidance and support from faculty and laboratory staff. This indicates strong faculty support in the laboratory, which is crucial for students' learning experiences.

## Extra-curricular Activities:

The feedback received from students regarding the college infrastructure is generally positive, with a significant proportion of students satisfied with the organization of cultural activities, practice sessions, and assistance from faculty and staff. However, there are areas where improvement is needed, particularly in ensuring that cultural activities are perceived as extremely well-planned and that practice sessions are organized more consistently.

## College Overview:

The feedback from students regarding college infrastructure highlights several positive aspects, including the supportive administrative staff, safety and security measures, and the presence of a college website and greenery on campus. However, areas for improvement include ensuring access to purified drinking water facilities for all students.

### **1. Supportive and Helpful Administrative Staff:**

The majority of students find the administrative staff to be supportive and helpful, with

45.8% of students rating them as "Extremely Supportive & Helpful," and an additional 43.2% rating them as "Supportive and Helpful." This indicates a high level of satisfaction with administrative support services.

### **2. Safety and Security Framework:**

A significant percentage of students, 48%, reported being "Extremely Satisfied" with the safety and security framework of the college campus. An additional 38.1% expressed being "Very Satisfied." This demonstrates that the college has been successful in ensuring a safe environment for its students.

### **3. College Website:**

The overwhelming majority of students, 98.2%, confirmed that the college has its own website. This suggests that the college is effectively utilizing online resources to communicate and provide information to its students.

### **4. Safe and Secure Common Room for Female Students:**

A vast majority, 97.4%, reported that the college has a safe and secure common room for female students. This reflects the college's commitment to providing a comfortable and secure environment for all students.

### **5. Purified Drinking Water Facilities:**

Approximately 86.7% of students indicated that the college provides adequate purified drinking water facilities. While the majority of students are satisfied, there is still room for improvement to ensure that all students have access to clean and safe drinking water.

### **6. Greenery on Campus:**

The presence of greenery on campus is appreciated by the students, with 98% confirming its existence. This not only contributes to the aesthetics of the campus but also enhances the overall college experience.

## Conclusion:

The feedback from our alumni reflects a high level of satisfaction with various aspects of PPN College, including the admission process, faculty, academic environment, and overall experience. While there are areas for improvement, such as infrastructure and laboratory facilities, the overwhelmingly positive responses regarding relevance to career and willingness to contribute as alumni are indicative of a strong bond between the college and its graduates.

We thank our alumni for their valuable feedback, which will help us continue to enhance the quality of education and facilities at PPN College.
