Report on the Use of ICT in the Department

The purpose of this report is to provide an overview of the use of Information and Communication Technology (ICT) in our department.

Three WhatsApp group has been created in our department for B.A 1, B.A 2 & B.A 3. The WhatsApp group allows real-time communication, faculty members can easily share documents, files, and resources through WhatsApp. It has facilitated the exchange of teaching materials, research papers, and other relevant resources, enhancing the department's knowledge-sharing capabilities. These WhatsApp groups also serve as a platform for discussion and idea sharing.

Our department has also conducted online exams through google forms. The online exams provide flexibility in terms of scheduling and accessibility for both students and faculty. Google Forms provides data analytics and insights, allowing faculty members to analyze student performance, identify areas of improvement, and tailor their teaching strategies accordingly. The department has also conducted online classes for the students.
